

Id	Name	Method	URL	Request Headers and Body	Status	Response Headers	Response Body	Response Time	Size	Conclusion
1	Get All Posts	GET	https://jsonplaceholder.typicode.com/posts	-	200	Content-Type: application/json; charset=utf-8; the response was compressed and cacheable.	JSON array containing 100 post objects. Each includes userId, id, title, and body.	133ms	8.02KB	Matches the purpose because it returns the collection of posts.
2	Get One Post	GET	https://jsonplaceholder.typicode.com/posts/1	-	200	Content-Type: application/json; charset=utf-8.	{"userId":1,"id":1,"title":"sunt aut facere repellat provident occaecati excepturi optio reprehenderit","body":"quia et suscipit..."}	105ms	1.31KB	Matches the purpose because it returns the single post whose ID is 1.
3	Create Post	POST	https://jsonplaceholder.typicode.com/posts	Request header: Content-Type: application/json Request body: {"title":"WAD Laboratory 02","body":"Creating a sample post using Postman","userId":1}	201 Created	Content-Type: application/json; charset=utf-8; Location: https://jsonplaceholder.typicode.com/posts/101; Content-Length: 112.	{"title":"WAD Laboratory 02","body":"Creating a sample post using Postman","userId":1,"id":101}	357ms	1.32KB	Matches the purpose because the submitted fields are returned with a generated ID of 101.
4	Replace Post	PUT	https://jsonplaceholder.typicode.com/posts/1	Request header: Content-Type: application/json Request body: {"title":"Replaced WAD post","body":"This resource has been fully replaced","userId":1}	200	Content-Type: application/json; charset=utf-8.	{"title":"Replaced WAD post","body":"This resource has been fully replaced","userId":1,"id":1}	346ms	1.2KB	Matches the purpose because the response represents post 1 using the complete replacement data.
5	Delete Post	DELETE	https://jsonplaceholder.typicode.com/posts/1	-	200	Content-Type: application/json; charset=utf-8; Content-Length: 2.	{}	1.22s	1.08KB	Matches the purpose because the successful status and empty object indicate the simulated deletion completed.
6	Update Post	PATCH	https://jsonplaceholder.typicode.com/posts/1	Request header: Content-Type: application/json Request body: {"title":"Partially updated WAD post","body":"Only selected fields are modified","userId":1}	200	Content-Type: application/json; charset=utf-8.	{"userId":1,"id":1,"title":"Partially updated WAD post","body":"Only selected fields are modified"}	349ms	1.2KB	Matches the purpose because the response contains the updated fields while retaining the resource ID.
